98% Natural

Profile

The Beauty Is Our Front-end And The Strong Presence Of Natural Ingredients Are Back End. Generating Beauty From The Natural Ingredients Is An Art And The Way Of Generating Beauty Is The Science At Dolphin IBA.

Dolphin IBA / Your Beauty Partner

Beauty is a combination of qualities, such as shape, color or form that pleases aesthetic senses especially sight.

Mother nature blessed all of her creation with tremendous beauty.

Then what happens? We didn't take care of our blessings in fast life. Pollution , improper diet and lazy life style drives away our natural beauty.

so.....our biological age exceeds chronological age. **Skin is the largest sense organ where all these changes reflect at first.**

Time came to supercharge our skin.

Is it possible? How?

Yes, donkey milk , the natural elixir

Will donkey milk make you beautiful?

Donkey milk may sound like a trendy new comer to the milk market, but in reality, it has been around us for thousands of years. Queen Cleopatra is known for her beauty and flawless skin. She bathed in donkey milk.

Why donkey milk became the beauty secret of Queen Cleopatra?

Nutritionally it is very similar to human breast milk. It is rich in vitamins,(A,B,C,D,E) minerals and essential fatty acids.(omega3and 6). They help to revitalize and nourish our skin.

High levels of protein, phospholipids and ceramides helps skin tightening, regeneration and smoothening.

It has amazing antiwrinkle effect.

Naturally occurring lactic acid in donkey milk encourage the exfoliation of skin.

Whey protein in donkey milk is notable for its antimicrobial properties. It can prevent the growth of bacteria and viruses and reduce and calm down skin irritation and redness.

That means that it helps the skin that is irritated and inflamed, and has been used as a natural remedy for acne , eczema and psoriasis.

The antioxidants in it protect cells from oxidative damage caused by sun exposure and prevent anti ageing.

Is it expensive?

Availability of donkey milk is a challenge. Seasonal variation, location and feed difference can affect milk quantity and quality.

Donkey milk is collected humanely with the baby and mother being kept together, unlike cow the mother donkey cannot produce milk without the child.

What Dolphin iba brings to you

We are adding the beauty secret of Queen Cleopatra in freeze dried form in our products to preserve the biological quality of milk and to preserve its nutritional functional and cosmetic properties, together form our Dolphin IBA Nutricosmetics & Cosmeceuticals and we nourish the skin on a deeper level, utilizing the best of nature and science,

"If you focus on a good skin, you really won't need a lot of make up."

Donkey milk in **Dolphin IBA** products are rich in vitamins (A, B, C, D, E) and fat acids (omega 3 and 6), helps to restore and protect the membranes of skin cells. The Lysozyme present in the formulations is suitable to be a skilled attenuator inflammatory states of the skin and scalp.

Historically donkey milk was part of beauty rituals of ancestral cultures. The Greeks considered Donkey milk as an excellent remedy, the Romans regarded it as a luxury drink. Hippocrates, the ancient Greek god of health, recommended it for all sorts of maladies: poisonings and snake bites, joint pains, wounds, etc. Cleopatra bathed in donkey milk to maintain her beauty.
